

A WALK IN THE GARDEN

A collaboration with **William McDonough**

shaw contract®

**collaboration
comes full circle**

Struck by the harmony of man-made surfaces in nature, Cradle to Cradle visionary William McDonough captured moments from a garden in China that inspired the way we make products to this day.

Renewed and revisited, Shaw Contract relaunches A Walk in the Garden, our world-changing design collaboration with William McDonough, in 9x36 tile and a fresh color palette. Expanding on our connection with nature, made for positive impact.
