Inhabiting Haven

Traditional wisdom tells us there's no place like home. It's a universal truth. But what if home was not simply a place but a state of mind? The Haven collection reimagines home as a mood, an idea, a quality of comfort and familiarity that feeds our instinctual desire to feel grounded in the world. Haven utilizes color, texture, and pattern to conjure the warmth of home in all the places where we connect with colleagues and friends. By blurring old distinctions between domestic and commercial space, Haven embraces a more nuanced understanding of how we live today—finding home wherever our creativity and passion take us.

“We develop design solutions not merely by researching trends but by placing those trends in the context of broader cultural shifts. We see design as an expression of the way we live today. The Haven collection celebrates the increasing fluidity between our work life and our home life.”
