

A photograph of a modern interior space, likely a lounge or meeting area. The floor is covered in a grey and white patterned carpet. In the center, there is a round wooden table with three blue plastic chairs with metal bases. A small glass vase with green plants sits on the table. The background features large arched windows and a glass railing, suggesting a multi-level building with exposed wooden beams and brick walls.

Living Systems

shaw contract®

Observe, Respond, Transform

Step into a space designed to engage, evolve and revitalize the senses. The Living Systems collection provides a warm and holistic experience for the places where we heal, learn and work.

Regenerative design influences this system-led collection with organic and textural aesthetics. Living Systems mirrors nature, responds to be adaptive, transforms outlooks and co-creates a living system for all interior spaces.

Focused on the principles of a circular economy, Living Systems is Cradle to Cradle Certified™ Silver. With its Ecoworx® backing, we can reclaim and recycle the product at the end of its useful life.

Colored By Nature

The collection features seven styles in three different patterns. *Observe*, *Respond* and *Transform* offer a full range of neutrals, while *Observe Color*, *Respond Color* and *Transform Color* interject a spectrum of vivid colors into the three core patterns of the collection. *Endless*, a saturated near solid, integrates the collection's palette seamlessly.

A Natural Progression

The living system approach allows design flexibility, maximizing the organic textural aesthetics of the collection. With shifts in color gradation and pattern scale, designers have a variety of choices to create visual cohesion throughout the built environment.

This flooring system can be combined and recombined— mimicking how the natural world renews, regnerates and colors environments— to evolve through space and time.

Detail, Space, Zoning

Endless, a small-scale grainy texture, is offered in 18 colors and supports zoning and smooth transitions between the other styles in the collection. The neutrals can create a subtle canvas, while the colors can be used to define areas within your space.
