

A modern interior space, likely a lounge or office area, featuring a large, patterned carpet in shades of blue and grey. The ceiling is made of dark wood with horizontal slats and integrated linear lighting. On the left, there are two wooden chairs with orange-brown upholstery. In the center, a long white bench runs along a wall with a large mural of butterflies. To the right, a long white bench is accompanied by several small, round, black metal tables. One table holds a laptop, a glass, and a book. Another table holds a cup and saucer. A large potted plant is visible near the back wall. The overall design is clean, modern, and functional.

Living Systems

shaw contract®

Boundless Design

Step into a space designed to engage, evolve and revitalize the senses. The Living Systems collection provides a warm and holistic experience for the places where we heal, learn and work. The collection features two Quick Ship patterns—*Boundless*, a more organic free-flowing visual, and *Source*, a multi-directional pattern.

Focused on the principles of a circular economy, Living Systems is Cradle to Cradle Certified™ Silver. With its Ecoworx® backing, we can reclaim and recycle the product at the end of its useful life.

Adaptive Design

This flexible and design-led collection allows for endless creative possibilities. With various applications for product transition and a variety of colors, interior spaces are as functional as they are unforgettable.

Living Systems offers two Quick Ship styles— *Boundless* and *Source*, each in 18 colors. With Quick Ship, door to floor delivery gives designers fast-track service for projects that demand fast turnarounds without compromising creativity.

Harmonious Design

Boundless and *Source*, both small-scale organic patterns, complement the entire Living Systems collection and its coordinating colorpoint styles. With integral patterns and colors, designers have a variety of choices to create aesthetic cohesion throughout the built environment.

This carpet is manufactured and sold for floor covering use only. Chair pads are recommended under office chairs with roller casters in order to protect appearance retention and to avoid premature wear. Walk off tiles are recommended at building entrances. As with all carpets, colors are subject to dye lot variations. Shading is the result of pile distortion and often is described as "watermarking". This does not constitute a manufacturing defect. To meet warranty requirements, approved adhesives and seam sealers must be used for glue-down application, consult shawcontract.com for more information. This carpet is an exclusive design and may not be duplicated in any manner. Use of this design in the creation of another carpet design is also strictly prohibited. Specifications are subject to nominal manufacturing variances. Material supply and/or manufacturing processes may necessitate specification changes without notice. Visit shawcontract.com/testing for more information.
