ShawContract®

# Form and Function

From ceiling to ground floor, we are surrounded by architectural planes of influence. These surrounding spatial elements play together in *Floor Architecture*. This collection is constructed with nuanced color and punctuated with realistic imprints, making a strong design statement.

Building on a core collection of value-driven, sophisticated design, these patterns add elevated scale to interior environments. *Floor Architecture* offers a range of warm and cool neutrals featured in 24 × 24 inch and 9 × 36 inch tiles that coordinate across the Shaw Contract product line.

## Floor Architecture Family

The *Floor Architecture* collection is designed to transition from place to place naturally and seamlessly. The 24 × 24 inch tiles and 9 × 36 inch tiles coordinate beautifully with the existing 24 × 24 inch tiles in the collection.

# Why Floor Architecture?

### Built to Perform

Our EcoSolution Q® fiber is 100% solution-dyed, recyclable nylon engineered to reduce soiling while retaining color and appearance.

### Lighter & Stronger

EcoWorx® weighs 25% less and has superior tensile strength when compared to traditional PVC backing. This results in significant carbon reductions during transport and ensures industry leading durability.

### Lifetime Stain and Color Protection

EcoSolution Q® is backed by a Lifetime Commercial Warranty covering fiber abrasive wear, static protection, staining and colorfastness to light and atmospheric contaminants.

### Installation Possibilities

A plank format allows for fun and flexible installations, including ashlar, brick, herringbone and stagger. Group two or three planks together for a large format feeling to build scale.

RIDGE—layered herringbone textures evoke images of mountain ranges

At the heart of Shaw Contract we design products and solutions with our customers in mind. Everybody counts.

Sustainability is what unites us. It is our foundation and our purpose: our equal rights, our shared experience, our hopeful future. It is the air we breathe and the earth we stand upon.

## Material Health

We design and manufacture products to optimize human environments.

### Cradle to Cradle Certified® Silver

Designed and assessed for environmental and social performance across five critical sustainability categories: material health, material reuse, renewable energy and carbon management, water stewardship, and social fairness.

### Indoor Air Quality

People spend 90% of their time indoors, making these environments critical to our wellbeing. This product is Green Label Plus (GLP) Certified, meeting the California Department of Public Health (CDPH) indoor air quality standards for low-emitting products.

## Carbon Impact

We are a positive force in the global effort to collectively fight climate change.

### 50% Reduced Carbon Footprint

As a result of Shaw's investments to help reduce our energy and greenhouse gas impact, we have cut our Scope 1 & 2 emissions by more than half since our 2010 baseline.

### Carbon Neutral Facility

Shaw has achieved carbon neutrality in our commercial carpet operations. Since 2018 our global carpet operations are 100% carbon neutral.

## Circular Economy

We practice a regenerative, closed-loop approach to sustainability.

### re[TURN]® We Want it Back

At the end of its useful life, we'll reclaim and recycle EcoWorx® backed carpet to make more EcoWorx® carpet products at no cost to you. Since 2006, Shaw has reclaimed and recycled nearly 1 billion pounds of post consumer carpet reducing landfill waste.

## Diversity, Equity & Inclusion

We nurture an environment where every voice and perspective can be heard, with equal value placed on seen and unseen experiences.

### Supplier Diversity Program

For each purchase of Shaw Contract flooring, 30% goes to support small & diverse businesses. We want to promote supplier participation that is reflective of Shaw's diverse customer base and local communities, bringing more innovation and opening new markets for growth.
